DYNAMICS AND GROWTH IN THE PHARMACEUTICAL DISTRIBUTION MARKET

Biols Pharmaceuticals is one of the most dynamic and growing companies in the pharmaceutical distribution market, in Portugal, as a result of a triple partnership with the pharmaceutical industry, the Pharmacy sector and the Hospitals.

Biols Pharmaceuticals has its own network of warehouses located in Mainland Portugal, the Azores and Madeira. From this logistics, Biols Pharmaceuticals makes efficient distribution of medicines and health products to more than 450 clients such as pharmacies, hospitals, clinics, wholesalers and professionals all over the country.

In order to satisfy the most diverse requests of the market and particularly of its customers, Biols Pharmaceuticals holds a portfolio of exclusive brands, granted by the most prestigious pharmaceutical laboratories as well as its own proprietary brands.

BioLS has always been open to the world and has several years of experience in wholesaling pharmaceuticals to all parts of the globe. Never compromising in the quality of everything it does, has a TQM – Total Quality Management system implemented especially suited to be capable of transmitting value to the economic chain of the medicine, from the its origin to its final point

Biols Pharmaceuticals designs a specific business for each partner, a “taylor made” through the implementation of interactive planning guided by the objective of a continuous communication and feedback with all our stakeholders in a biunivocal relation, circulate from each other in order to give the channel security, quality, transparency and fluid circulation throughout the supply chain.

The market supply of Biols Pharmaceuticals complies with the “one stop shop” concept in order to ensure the continuity of supply and the effective availability of pharmaceuticals to its customers in order to meet the immediate and urgent needs of patients under the most favorable conditions.

BioLS works daily with the pharmaceutical industry to make a difference in global health improvement by developing innovative and value-added solutions with the goal of making health healthier, more accessible and less burdensome.
